## Description

Rincon Research Corporation's Model MB2RD-02 and MB2RD-03 are high-speed RAID storage companions to the Mountain Brik 2. They allow you to save the full 105Hz input bandwidth of the Mountain Brik 2 to disk for up to eight hours (210MB/sec. into 6TB). The system is also capable of saving up to four lower rate streams to disk simultaneously.

The MB2RD-03 features a removable disk pack to facilitate easy drive swaps in the field for additional data storage.
